

CLEANING DRIVE- PUZHANADATHAM- RIVER CLEAN- UP PROGRAMME

Organising Unit/ Collaborating Agency	
HENRY BAKER COLLEGE NSS UNIT & MELUKAVU GRAMAPANCHAYAT	
Date of Event	Number of Students participated
29.04.2023	8

Fresh water is the most vital natural resource. Clean, healthy rivers reduce human health risk and improved quality of life. Unfortunately, most of our rivers and other water bodies are polluted due to the human interventions. During the monsoon season, the garbage and other wastes dumped in the river banks will end up in the river. So it is essential to clean our river bed and its banks before the monsoon. The NSS Unit of Henry Baker College, in association with Melukavu Grama Panchayat, Community Health Centre, Edamaruku, Harithakarmasena and Kudumbasree Unit organised “Mazhakkala Poorva Sucheekaranam: Cleaning Programme “ Puzhanadatham” on 29.04.2023. We started cleaning the Kurishinkal river near our college. Medicines, garbage bags and gloves were provided from the health department. Our goal was to remove plastic wastes and other wastes from the river and its banks. The team walked along the river and its banks and removed the wastes. The inauguration of the programme was held at Kodithoppu at 10.30 am. Panchayat President Sri. Thomas C Vadakkal inaugurated the programme. The collected wastes were segregated and handed over to the Harithakarmasena. The programme sensitized the students that keeping rivers clean is the duty of every citizen as they are the primary source of food production. 8 students participated in the programme.
