BLURRING THE MARGINS

1. VISIT TO NJANDUKULAM TRIBAL SETTLEMENT

Njandukulam is a tribal settlement near Mamalakandam in Ernakulam District. It is an abode of Muthuvan and Mannan tribes. On 31st June 2018, 2 teachers and 4 students from the college visited Njandukulam settlement and met their Mooppan Mr. George to know about their problems and challenges. Reaching there, the team conducted a socio-economic survey of the settlement. The survey revealed their economic status, exploitation by the non-tribals as well as the geographical hazards in their day to day life. From the survey we also came to know that only a few among them is educated and majority of them are illiterate. And their ignorance is always misused by non-tribes. The team offered the support of the college while interacting with them and assured them help in times of need.

2. VISIT TO NJANDUKULAM TRIBAL SETTLEMENT

Second visit to Njandukulam was on 19th July 2018. During this period they were facing the problems from heavy rain and flood. The purpose of the visit was to understand the requirements of the settlement and thereafter to provide necessary support. A team of 4 students and 2 teachers visited the site.

3. SUPPORT TO NJANDUKULAM TRIBAL SETTLEMENT

Third visit to Njandukulam tribal settlement was on 29.09.2018. Generally in the rainy season they are in utter poverty. During the time of flood their condition became very pathetic. S., Principal, Mr. Justin Jose, NSS Programme Officer, Mr. Anish Thannikkal, Head, Department of Tourism and Hospitality Management and Dr. Nisha Joseph, NSS Programme Officer visited the Kurathykudy tribal settlement to learn about the socio-economic profile of the people in the region. As it is a restricted area, entry is permitted to few.

As a first step, the team members visited Kudis and conducted a survey to find out the educated youngsters in the settlement. As a result, we got a list of 148 educated youngsters. Even though some of them have completed Higher Secondary education, they have not gone to higher education or are not employed. Others in the list are dropouts from

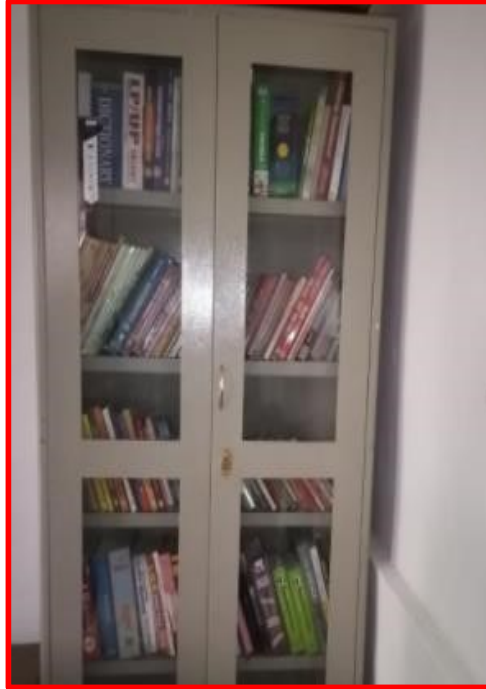

the school. Moreover, as the settlement is in a remote region, they lack communication facilities and are ignorant about the higher education facilities and employment opportunities. Many were first generation learners also. The team understood the need to support them.
