		<b>CO2</b>	Understand the social construction of gender.
		<b>CO3</b>	Study gender history of India and the modern construction of gender in India
<b>HY6CBT01</b>	<b>Archaeology in India</b>	<b>CO1</b>	Learn archaeology as a supplement to historical writing
		<b>CO2</b>	Study methods and techniques of archaeological explorations and excavations.
		<b>CO3</b>	Learn important archaeological sites in India.
	<b>Dissertation</b>	<b>CO1</b>	Practice in doing research in history
		<b>CO2</b>	Learn the skill to write history

## Political Science (Complementary Course of B.A. History)

### SEMESTER 3

Course Code	Course Title	Course Outcomes (CO)	
PS3CMT01	An Introduction to Political Science	CO1	To understand the nature and significance of politics and governance.
		CO2	Critical understanding of key concepts in Political Science
		CO3	To familiarize major ideologies in Political Science.

### SEMESTER 4

PS4CMT05	Indian Constitution: Social Issues in India	CO1	To equip students with the basic terminologies in Indian Constitution.
		CO2	Helps the student to understand the working of Indian constitution and the key issues in Indian polity
		CO3	Critical Understanding of the constitutional designs and institutional frame work of Govt.

## Economics (Complementary Course of B.A. History)

### SEMESTER 1

Course Code	Course Title	Course Outcomes (CO)	
	Principles of Economics	CO1	Identify the basic economic problem
		CO2	Know how they arrive at the price they are willing to pay for a commodity
		CO3	How producers are fixing the price which they are willing to sell.
<b>SEMESTER 2</b>			
	Basic Economic studies	CO1	The student gets an overview of how an economy work
		CO2	The student will know about the Indian economy
		CO3	The student will know about the Kerala Economy

## B.Sc. Physics (Model I)

### SEMESTER 1

Course Code	Course Title	Course Outcomes (CO)	
PH1CRT01	Methodology and Perspectives of Physics	CO1	to examine the evolution of Physics and hence open up their minds to new ideas and ways of thinking
		CO2	to make use of measuring and instrumental tools for practicing Physics

		CO3	to realise the necessity of measurements in physics, estimation of errors and uncertainty
		CO4	to estimate error and check the accuracy of measurement while performing a laboratory experiment

### SEMESTER 2

PH2CRT02	Mechanics and Properties of Matter	CO1	acquire a basic knowledge of the core physics principles in mechanics
		CO2	differentiate between translational and rotational motion, find the moment of inertia of different shapes and objects
		CO3	understand the principles of elasticity and solve practice problems through evaluating the relationship between stress and strain
		CO4	develop basic skills to perform experiments for understanding different concepts in properties of matter
		CO5	to understand the concept of conservation of energy and angular momentum and should be able to solve problems related to it
		CO6	to understand the principles that govern the flow of fluids
		CO7	understand the physical concepts behind SHM and should be able to reproduce the theory to physical systems that execute SHM

### SEMESTER 3

PH3CRT03	Optics, Laser and Fiber Optics	CO1	realise the physics behind different optical phenomena in everyday life
----------	--------------------------------	-----	---

		CO2	explain different properties of light like interference, diffraction and polarization in the context of wave nature of light, compare diffraction pattern observed with single, double and n-slits, describe different types of polarized light
		CO3	explain why thin films like oil, soap bubble form colourful patterns
		CO4	understand the characteristics of laser, explain working principle of different types of lasers, and summarize applications of laser in diverse fields
		CO5	gain knowledge about the physical structure of optic fibers, distinguish between different types of optical fibers, demonstrate its application in communication systems

### SEMESTER 4

PH4CRT04	Semiconductor Physics	CO1	illustrate the internal mechanism of a semiconductor and semiconductor devices
		CO2	solve numerical problems relating to various semiconductor parameters
		CO3	design circuits containing semiconductor devices and their combinations
		CO4	analyse different circuits containing semiconductor devices
		CO5	explain basics of semiconductor diodes its characteristics, application to rectifiers and voltage regulators

### SEMESTER 5

PH5CRT05	Electricity and Electrodynamics	CO1	investigate different AC circuits containing inductance, capacitance and resistance
		CO2	evaluate divergence and curl in various electrostatic and magnetostatic problems
		CO3	compute electric field and electric potential of discrete and continuous charge distribution
		CO4	analysing alternating emf and alternating current (AC)
		CO5	distinguish ideal voltage and current sources and apply network theorems on various networks
		CO6	infer that Maxwell's four equations explain all of electromagnetic theory
		CO7	examine generation and nature of thermoelectricity
PH5CRT06	Classical and Quantum Mechanics	CO1	relate the quantum mechanics concepts to diverse fields in physics
		CO2	solve classical systems like linear harmonic oscillator, atwoods machine etc. using Lagrangian and Hamiltonian methods
		CO3	develop mathematical insights to advanced quantum theories
		CO4	understand the terms operators, eigen values, expectation value
		CO5	realise the concept behind wave - particle duality, uncertainty principle
		CO6	understand the development of time dependent and time independent Schrodinger equation
PH5CRT07		CO1	analyse the use of digital electronics in mathematical computation

	<p align="center"><b>Digital Electronics and Programming</b></p>	CO2	examine the logical background of functioning of various electronic circuits
		CO3	simplify boolean expressions using boolean rules and laws
		CO4	apply De-Morgan's theorem to solve various logic circuits
		CO5	develop logic to write C++ programs to solve quadratic equations, generation of Fibonacci series etc.
		CO6	understanding circuit elements using flip-flops, registers and A/D converters
<p align="center"><b>PH5CRT08</b></p>	<p align="center"><b>Environmental Physics And Human Rights</b></p>	CO1	investigate how and why things happen, and make their own decisions about complex environmental issues
		CO2	examine how their decisions and actions affect the environment, builds knowledge and skills necessary to address complex environmental issues, as well as ways we can take action to keep our environment healthy and sustainable for the future. It encourages character building, and develops positive attitudes and values
		CO3	develop the sense of awareness among the students about the environment and its various problems and to help the students in realizing the inter-relationship between man and environment and helps to protect the nature and natural resources
		CO4	develop basic knowledge about environment acts and the social norms that provides unity with

			environmental characteristics and create positive attitude about the environment.
PH5OPT02	Physics in Daily Life	CO5	examine the physical principles behind various physical phenomena and the scientific issues in daily life
		CO6	criticize and express views in logical and effective ways
		CO7	appraise the significance of knowing 'physics' in everyday phenomena.
<b>SEMESTER 6</b>			
PH6CRT09	Thermal and Statistical Physics	CO1	develop a basic knowledge required to design devices involving the interchange between heat and work or the conversion of material to produce heat
		CO2	analyse various thermodynamic processes and work done in each of these processes
		CO3	distinguish reversible and irreversible processes.
		CO4	analyse the working of a Carnot engine
		CO5	calculate the change in entropy in various reversible and irreversible processes Upon completion of the course, the learners will be able ....
		CO6	discuss the various statistical distributions followed by different particles
PH6CRT10	Relativity and Spectroscopy	CO1	develop a conceptual understanding of special and general theories of relativity
		CO2	distinguish atomic and molecular behaviors that gives rise to various spectroscopic methods

		CO3	develop a working knowledge of spectroscopic methods currently used in research fields
		CO4	develop a basic knowledge of principles behind NMR and ESR spectroscopy and its applications in diverse fields
PH6CRT11	Nuclear, Particle Physics and Astrophysics	CO1	categorize various elementary particles and their impact on physical processes
		CO2	investigate various nuclear and subatomic phenomena
		CO3	relate the interaction of subatomic particles, cosmological processes and stellar evolution processes.
		CO4	discuss various nuclear models like shell model and liquid drop model
		CO5	basic knowledge of different nuclear reactors
PH6CRT12	Solid State Physics	CO1	analyse different concepts in solid state physics
		CO2	examine the effect of electric and magnetic fields on materials
		CO3	develop a conceptual understanding of internal mechanism of semiconducting materials and their fabrication
		CO4	sketch the crystal structure and assess the working of superconducting materials
		CO5	grasp basic ideas of ionic, hydrogen, metallic and van der Waals's bonding
		CO6	distinguish between metals, insulators and semiconductors

		CO7	define intrinsic and extrinsic semiconductors, understand the principles behind LED and photodiodes
PH6CBT01	Information Technology	CO1	apply current technical concepts and practices in the core information technologies of networking, web page designing and data management
		CO2	select and apply current techniques, skills, and tools necessary for computing practice
		CO3	integrate IT-based solutions into the user environment effectively
		CO4	discuss IT based concepts effectively with a range of audiences using a range of modalities including written, oral and graphical

## Mathematics (Complementary Course of B.Sc. Physics)

SEMESTER 1			
Course Code	Course Title	Course Outcomes (CO)	
MM1CMT01	Partial Differentiation, Matrices, Trigonometry and Numerical Methods	CO1	To familiarize students with functions of several variable, partial differentiation.
		CO2	Students are getting detailed knowledge about Matrices, eigen values of matrices, Cayley Hamilton theorem
		CO3	To familiarize students with expansion

			of various trigonometric functions, C+iSmethod .
		CO4	Students can find non integer solution to a function using bisection method, Method of False position, Iteration Method, Newton - Raphson Method.

### SEMESTER 2

MM2CMT01	Integral Calculus and Differential Equation	CO1	Students became able to find solution of three dimensional structure using Cross-Sections, Volumes using Cylindrical shells, Arc lengths, Areas of surfaces of Revolution.
		CO2	Students became able to calculate area using double and triple integrals
		CO3	Students became able to calculate solution of ordinary and partial differential equations.

### SEMESTER 3

MM3CMT01	Vector Calculus, Analytic Geometry and Abstract Algebra	CO1	Students get knowledge about vector valued functions and integration on vector fields.
		CO2	The concept of Polar coordinates, Conic sections, Conics in Polar coordinates became familiar
		CO3	Students get an introduction to Abstract Algebra by studying groups, subgroups, groups of permutations and homomorphism.

### SEMESTER 4

MM4CMT01	Fourier Series, Laplace Transform and Complex Analysis	CO1	Students get a brief introduction to power series and power series method for solving Differential equations, Legendre equation and Legendre polynomials $P_n(x)$ .
----------	--	-----	---

		CO2	To familiarize students with Laplace Transform, Inverse Laplace transform, Linearity, Shifting, transforms of Derivatives and Integrals, Differential Equations, Differentiation and Integration of Transforms.
		CO3	To make the students understand the concept of complex numbers, polar form of complex numbers, integration of complex numbers

## Chemistry (Complementary Course of B.Sc. Physics)

### SEMESTER 1

Course Code	Course Title	Course Outcomes (CO)	
CH1CMT01	Basic Theoretical And Analytical Chemistry	CO1	Students get more ideas about the atomic structure, chemical bonding, periodic properties of atoms and molecules.
		CO2	To familiarise students with basic principles of analytical chemistry.
		CO3	Students can apply these skills in the analysis of experimental data in chemistry practical
CH2CMP01	Volumetric Analysis Practical	CO1	To familiarize student's different estimation technique.
		CO2	To study the effect of various indicators
		CO3	To familiarize students with accuracy of the given experiment
<b>SEMESTER 2</b>			
CH2CMT02	Basic Organic Chemistry	CO1	To develop the fundamental concepts of organic chemistry and stereochemistry of reactions

		CO2	The course aims to study the mechanism of organic reactions
		CO3	To understand the fundamentals of various classes of synthetic and natural polymers, its biodegradability and environmental hazards

### SEMESTER 3

CH3CMT03	Physical Chemistry I	CO1	To familiarise the students with basic concepts in physical chemistry.
		CO2	To understand various basic concepts and practice of physical chemistry.

### SEMESTER 4

CH4CMT05	Physical Chemistry II	CO1	To make the concepts and methods of physical chemistry clear and interesting to students
		CO2	To understand the theory of modern branches like spectroscopy.
CH4CMP02	Physical chemistry experiments	CO3	To develop their experimental and data analysis skills through a wide range of experiments

## B.Voc (Tourism & Hospitality Management)

### SEMESTER 1

Course Code	Course Title	Course Outcomes (CO)	
BOCG101	Listening and Speaking Skills in English	CO1	Introduce the students to the speech sounds of English in order to enable them to listen to English and speak with global intelligibility.

		CO2	Enable the students to speak English confidently and effectively in a wide variety of situations.
		CO3	Improve the reading efficiency of the students by refining their reading strategies
BOCG102	Information Technology for Business	CO1	Understand and appreciate the critical role of information systems in today's organization.
		CO2	The program ensures the students capability in working with the computer for running any business units.
TH1GT03	Management Process and Organizational Behavior	CO1	Enable the students to understand the conceptual frame work of management and organizational behavior.
		CO2	To understand the managerial applicability of the concepts.
		CO3	To develop the skills and traits needed for hospitality managers.
TH1ST04	Hospitality and Resort Management	CO1	Provide the student with an introduction to the world of business and particularly to business as it applies to the hospitality industry.
		CO2	Understand the structure, nature and operating characteristics of the different sectors of the hospitality industry.
TH1ST05	Tourism Product and Tour Guiding	CO1	To invoke interest in students with basic concepts and contents of Tourism Studies.
		CO2	To enhance tourism with dignity, respect and nurture local cultures so that they enrich the tourism experience and build pride and confidence among local communities.

		CO3	To preserve and enhance local culture, art, handicrafts, monuments and other natural and man-made tourist resources.
		CO4	Learning professional aspect of tour guiding.
TH1SP06	Destination Visit and Report	CO1	Enable the students to gain relevant experience working within the field and that will complement their classroom theory.
		CO2	Enable the students to develop their practical and managerial skills in the working environment be able to supply them effectively.
		CO3	Establish useful contacts for future employment
<b>Semester 2</b>			
BOCG201	Writing and Presentation Skills in English	CO1	To make the students aware of the fundamental concepts of critical reasoning and to enable them to read and respond critically, drawing conclusions, generalizing, differentiating fact from opinion and creating their own arguments.
		CO2	To assist the students in developing appropriate and impressive writing styles for various contexts.
		CO3	To help students rectify structural imperfections and to edit what they have written.
		CO4	To equip students for making academic presentations effectively and impressively.
TH2GT02	Principles and Practices of Tourism	CO1	To introduce to the discipline of Tourism and various aspects that constitute the concept of Tourism

		<b>CO2</b>	To discuss the need and essentials of tourism planning for the sustainable growth of tourism industry
		<b>CO3</b>	To understand the nature of demand and supply factor in tourism business. * To discuss the critical analysis of different tourism impact on society, culture and environment
<b>TH2GT03</b>	<b>Front Office Management</b>	<b>CO1</b>	The aim is to provide the student with basic skills required at the reception, management of customer service operations and front-office operations.
		<b>CO2</b>	Analyzes hotel front office positions and the procedures involved in reservation, registration, accounting for and checking our guests, and principles and practices of night auditing. Covers the complete guest operation in both traditional and computerized operations
<b>TH2ST04</b>	<b>Housekeeping Operations</b>	<b>CO1</b>	To study about organizational structure and function of Housekeeping department and its different sections.
		<b>CO2</b>	To know about co-ordination of housekeeping department with other departments.
		<b>CO3</b>	To understand the cleaning responsibilities of the housekeeping department and cleaning procedure of different types of room.
		<b>CO4</b>	To understand key control, lost & found procedures.
		<b>CO5</b>	To know about cleaning equipment and cleaning agents

TH2ST05	Meet & Greet Service	CO1	Develop professional skills and competence to deliver greeting services to the customers/guests.
		CO2	Offer meet and greet services to the customers/guests; Perform the best practices of tourism and hospitality services to the guests and maintain standard of service etiquettes.
		CO3	Apply effective oral and written communication skills to interact with people and customers
TH2SP06	Hospitality Internship	CO1	By training, students get familiar with the hospitality industry operations.
		CO2	To develop the communication skill and to study how to interact with the hotel guests.
<b>Semester 3</b>			
BOCG301	Principles of Management	CO1	This course is a basic introductory and foundational management course.
		CO2	It is designed for students who desire to equip themselves with key knowledge, skills, and competencies in various aspects of management.
		CO3	The course encompasses the core components of management including planning, organizing, leading and controlling the organizations
TH3GT02	Foreign Language: German	CO1	To equip the students to interact with foreigner.
		CO2	Offers both traditional and interdisciplinary contexts for studying the language, literature and culture of German speaking countries.
		CO3	Demonstrate effective speaking and listening skills in German on informal and some formal

			topics related to personal and professional activities
TH3GT03	Travel Geography	CO1	Understand and explain how the different geographies of tourism are created, maintained, and utilized in the modern world
		CO2	TO gain basic knowledge about world tourism attractions
		CO3	To study about the role and importance of geography in tourism development
TH3ST04	Tourism Marketing	CO1	To know the concepts of and components of marketing
		CO2	To develop the right marketing mix for tourism
		CO3	Inculcate the skills for tourism marketing
TH3ST05	Travel Agency & Tour Operations Business	CO1	To understand various activities of travels agency and tour operation business
		CO2	To understand the packaging and itinerary planning
		CO3	To study and get the knowledge of travel documents
TH3SP06	Responsible Tourism	CO1	Explain best practices for planning, developing, and managing sustainable nature-based tourism in a manner that: a. evaluates the diverse consequences (quantitative and qualitative, direct and indirect, immediate and cumulative) of development, management, and promotion strategies and decisions; and b. applies an understanding of scale and community linkages in both domestic and international tourism.
		CO2	Create monitoring and assessment protocols for tourism

		CO3	Engage respectfully with individuals and groups that may have diverse perspectives and priorities regarding tourism development, and facilitate understanding and conflict resolution across these individuals and groups.
<b>Semester 4</b>			
BOCG401	Soft Skills and Personality Development	CO1	Develop business communication of students.
		CO2	Enable the students to speak English confidently and effectively in a wide variety of situations.
		CO3	Provide real world communication by presenting various real world business communication challenges in class room structure
TH4GT02	Tourism Ethics, Laws and Regulations	CO1	Understand the legal and regulatory frame work in the travel and tourism sector.
		CO2	Understand consumer protection legislation in relation to the travel and tourism sector
		CO3	Understand the role of business ethics in the travel and tourism sector.
TH4GT03	Sales, Advertising & Guest Relations in Tourism	CO1	Develop creative strategies for advertising.
		CO2	Enable them to plan media strategy, scheduling etc.
		CO3	Examine the importance of market segmentation, position and action of objectives to the development of an advertising and promotion program
TH4ST04	Event Management	CO1	Define the basic concept related to event management.
		CO2	Analyze financial management in events.

		CO3	Provide an opportunity for unleashing one's creative potential to a very high degree
TH4ST05	Tour Packaging & Itinerary Preparation	CO1	To know the science of tour package planning and itinerary preparation.
		CO2	To understand the various types of itinerary preparation.
		CO3	To learn the cost sheet planning and preparation, costing various package tours.
		CO4	To know the components of packaged tour
TH4SP06	Travel and Tour Internship	CO1	Enable the students to gain relevant experience working within the field and that will complement their classroom theory.
		CO2	Enable the students to develop their practical and managerial skills in the working environment be able to supply them effectively
		CO3	Establish useful contacts for future employment
<b>Semester 5</b>			
BOCG501	Environmental Studies	CO1	To bring in proper awareness among the students on environmental issues.
		CO2	To built a pro-environmental attitude and a behavioral pattern in society based on sustainable lifestyles.
		CO3	To impart basic knowledge on pollution and environmental degradation
TH5GT02	Managerial Accounts and Finance in Tourism	CO1	To enable students with elementary Business and accounting practice.
		CO2	Describe about the basic financial concepts.
TH5GT03	Humane Resource Management	CO1	To provide basic knowledge about the concepts of Humane Resource Management.

		CO2	To study the role and importance of Human Resources in tourism industry
		CO3	Identify strategic HR planning and the HRM process to the organization's strategic management and decision-making process.
TH5ST04	Changing Trends and Opportunities in Tourism	CO1	To know about current and future trends affecting the tourism and hospitality industry.
		CO2	To learn the latest tourism projects world-wide.
		CO3	To familiarize new international tourism destinations
TH5ST05	Destination Planning and Development	CO1	To familiarize with the destination branding practices.
		CO2	To enable students to plan and develop destinations
		CO3	To facilitate the assessment of the tourism potential of a destination and prepare tourism development plan.
TH5SP06	Study Tour and Report	CO1	To enables students to analyze the existing infrastructure and amenities of tourism development.
		CO2	Examine future prospectus in tourism promotion.
<b>Semester 6</b>			
BOCG601	Entrepreneurship Development	CO1	To familiarize the students with the concept and overview of entrepreneurship with view to enhance entrepreneurial talent.
		CO2	To impart knowledge on the basics of entrepreneurial skills and competencies to provide the participants with necessary inputs for creation of new ventures

		CO3	To explore new vistas of entrepreneurship in 21 <sup>st</sup> century environment to generate innovative business ideas.
TH6GT02	Research Methodology in Tourism	CO1	To know the role of research as a means to more effective decision making.
		CO2	To familiarize the students with the fundamental concepts and various techniques of research that can be used in Business and Management
TH6GT03	Airfares, Ticketing and Airport Management	CO1	To understand the structure and dynamic of airline industry
		CO2	To understand the airport and airlines management
		CO3	To study the international air fare regulation and formality to travel
TH6SP04	Project	CO1	Develop student abilities in project development, tour operation, hotel management
		CO2	Develop and present a project in a manner that meets current industry expectations, and highlights one's creativity, skills and proficiency.
		CO3	Investigate and evaluate the conceptual and commercial requirements for tourism products
		CO4	Organize, manage and perform key roles and activities within a production environment by efficiently and effectively working independently.
TH6SP05	Internship	CO1	Explore the experiences of tourism and hospitality interns to identify the dimensions of internship learning and factors influencing these learning strategies

		<b>CO2</b>	Assist the student's development of employer valued skills such as teamwork communication and attention to details
--	--	------------	--

## B.Com. (Model II) Computer Application

<b>SEMESTER 1</b>			
Course Code	Course Title	Course Outcomes (CO)	
CO1CRT 01	Dimensions and Methodology of Business Studies	CO1	To introduce the importance and fundamentals of business research
		CO2	To familiarize the technology integration in business
		CO3	To have an understanding of Business ethics and CSR
CO1CRT 02	Financial Accounting I	CO1	To equip the students with the skill of preparing financial accounts
		CO2	To enable students to develop financial reports from incomplete accounts
		CO3	To enable the students to prepare financial reports for different types of business situations
CO1CRT 03	Corporate Regulations and Administration	CO1	To familiarize the students with the management and administration of joint stock companies in India as per Companies Act, 2013
		CO2	To create an understanding among the students on formation and winding up of a Company

		CO3	To help the students to understand the implications of business laws in India
CO1CMT 01	Banking and Insurance	CO1	To familiarize the students Indian Banking Sector
		CO2	To familiarize the students Indian Insurance Sector
		CO3	To help students to understand banking and insurance instruments

## SEMESTER 2

CO2CRT 04	Financial Accounting II	CO1	To acquaint the students with the preparation of books of accounts of various types of business activities
		CO2	To enable students to account for dissolution of partnership firms
		CO3	To familiarize the application of important accounting standards
CO2CRT 05	Business Regulatory Framework	CO1	To familiarize the students with the legal framework influencing business decisions
		CO2	To make an understanding among students about Mercantile Law
		CO3	To equip the students with practical implications of Sale of Goods Act, 1930
CO2CRT 06	Business Management	CO1	To familiarize the students with concepts and principles of management
		CO2	To introduce various management techniques
		CO3	To introduce various management practices
CO2CMT 02	Principles of Business Decisions	CO1	To familiarize the students with concepts and principles of business decisions
		CO2	To introduce various principles applied in business
		CO3	To introduce various decision-making situations

### SEMESTER 3

CO3CRT 07	Corporate Accounts I	CO1	To familiarize with the rules relating to issues of shares and debentures.
		CO2	Equip the students to use new accounting schedules for the preparation of final statements.
		CO3	Develop the students to handle the accounting procedures in the corporate for buy back, redemption, and right issue and underwriting.
		CO4	Students are able to handle the accounting procedure of the insurance company and its clients while raising claims.
CO3CRT 08	Quantitative Techniques for Business- 1	CO1	To explain the features and methods of statistics
		CO2	Equip the students to handle business issues by using proper statistical tools.
		CO3	To apply the appropriate sampling survey method and collect data
CO3CRT09	Financial Markets and Operations	CO1	To create awareness regarding the operations of primary market in India
		CO2	To understand the role of secondary market in the financial market operations
		CO3	Develop the skill to help others on the different market situations in a specific manner.
		CO4	Equip the students to get a job in securities trading firms and other market related institutions.
CO3CRT10	Marketing Management	CO1	Students are equipped to identify the different marketing strategies used by the business firms.
		CO2	Understand the pricing strategies adopted in the marketing process.

		CO3	Develop the skill of sales.
		CO4	Make the students to be suitable for profession in Marketing field.
CO3OCT02	Information Technology for Business (T)	CO1	To provide knowledge about computer hardware and software
		CO2	To facilitate knowledge about application of IT in education, commerce, business and Industry
CO3OCP01	Information Technology for Business (P)	CO3	To provide information about internet and its advantages and disadvantages.

#### SEMESTER 4

CO4CRT11	Corporate Accounts II	CO1	To study the procedure followed for the liquidation of companies
		CO2	Familiarizes the students on the different accounting procedures and Provisions of Banking companies, Investment Companies and insurance companies.
		CO3	Students are equipped to get job in financial organization.
		CO4	To give a detailed idea about internal reorganization of companies
CO4CRT12	Quantitative Techniques for Business-II	CO1	To provide exposure on calculation of measures of correlation
		CO2	Students are equipped to analyze primary data by using appropriate statistical models.
		CO3	Developed skill to do descriptive analysis on primary and secondary data.
CO4CRT 13	Entrepreneurship	CO1	To acquire the knowledge on formalities and documentation for registration

	<b>Development and Project Management</b>	CO2	Students are familiarized with different technical and financial facilities availed at present.
		CO3	Students are able to start micro or tiny type business firm.
		CO4	To understand the government policies for the growth of SSIs
CO4OCT02	<b>Information Technology for Office (T)</b>	CO1	To make the students capable of managing the office activities with the help of information technology.
CO4OCP01	<b>Information Technology for Office (P)</b>	CO2	To enable the students to master in MS Word 2013
		CO3	To enable the students to master in adobe page maker, MS Excel 2013, and MS PowerPoint 2013

### SEMESTER 5

CO5CRT 14	<b>Cost Accounting - 1</b>	CO1	Familiarize the students with cost concepts and to make the students learn the Fundamentals of cost accounting as a separate system of accounting.
		CO2	Familiarize the students with latest inventory control techniques.
		CO3	Make students aware of accounting of Labour and overhead costs
		CO4	Equip students to prepare cost sheets.
CO5CRT 15	<b>Environment Management and Human Rights</b>	CO1	Familiarize Multidisciplinary nature of environmental studies, Natural resources, eco-systems, pollution, issues, and human rights
		CO2	Acquaint students with biodiversity of India and its conservation

		CO3	To create awareness among students about the consequences of pollution and possible solutions to avoid pollution
		CO4	Enable students to be aware of human rights related with environment.
CO5OCT02	Computerized Accounting (T)	CO1	To equip the students to meet the demands of the industry by mastering them with industry sought after computerized accounting packages.
		CO2	To expose the students to computer applications in the field of accounting.
CO5OCP01	Computerized Accounting (P)	CO3	To develop practical skills in the application of Tally Accounting Package.
		CO4	To develop awareness regarding statutory features especially GST features
CO5CMT08	Programming in 'C' (Theory)	CO1	To familiarize students with Basic concepts of programming.
		CO2	To familiarize students about Decision making, Branching and Arrays
CO5CMP01	Programming in 'C' (Practical)	CO3	To make aware the students about User defined functions, and Structures and Unions
<b>SEMESTER 6</b>			
CO6CRT 17	Cost Accounting - 2	CO1	Acquaint the students with different methods and techniques of costing and to enable the students to identify the methods and techniques applicable for different types of industries.
		CO2	Make students aware of operating and process costing techniques of different industries.

		CO3	To understand the students about the different tools in the hands of management for effective utilization of resources.
CO6CRT 18	Advertisement and Sales Management	CO1	To make the students aware of the strategy, concept and methods of advertising and sales promotion.
		CO2	Enable the students to prepare sales promotion budget and the knowledge about various sales promotion strategies may benefit those students who dream of a career in salesmanship.
		CO3	The students will acquire copy writing skills and will also be equipped with the ability to choose a particular medium for advertisement.
CO6CMT10	Database Management System (T)	CO1	It provides the students awareness about different data models and relationships in database and how to efficiently organize data in a database
		CO2	It provides students about the key concepts and database terminologies
CO6CMP01	Database Management System (P)	CO3	It enables the students to create database in MS access 2013
		CO4	It enables students to analyze and update data in database using queries
CO6CRT 20	Management Accounting	CO1	To understand the basic concepts of management accounting
		CO2	Helps to prepare fund flow statement and cash flow statement for the business organization
		CO3	Apply and analyze different types of activity-based management tools through the preparation of estimates.

CO6OCT02	Software for Business and Research (T)	CO1	To impart knowledge to use IT in business research analysis
		CO2	To enable student to use SPSS for business research analysis
CO6OCP01	Software for Business and Research (P)	CO3	To help the students to use Libre office calc and Libre office writer for business research operations

=====@@@@@=====
